

HEALTH, SAFETY, AND ENVIRONMENTAL POLICY

HENCH AND HADDOCK LIMITED operate with the highest **HEALTH SAFETY AND ENVIRONMENTAL** standards throughout its organization. This Policy statement clearly defines our commitment in a manner that protects the health, safety and welfare of our employees, partners, clients and stakeholders and the environment.

HENCH AND HADDOCK LIMITED recognize excellent HSE Performance as a core part of our operational success. Our purpose is to achieve zero injury, damage to assets and harmful to the environment.

Management's Commitments to achieve these by ensuring

- We comply with all applicable HSE laws & regulations, industry standards, as well as maintain a consistent and transparent dialogue with authorities, and other stakeholders.
- Line Management accountability for HSE concerns and personal contributions of all employees.
- Monitoring health and safety of all employees ensuring physical ability to perform their activities in a safe manner.
- Ensure that all personnel are competent, trained and adequately supervised to perform their work safely.
- Our operations are aligned to our HSE policies.
- Implement effective HSE management System to identify workplace hazards, assess risks and implement controls to eliminate or reduce risk.
- Prevent pollution and minimize environmental impacts.
- Protect biodiversity, ecosystem and local communities affected by our operations.
- Encouraging the reporting of all incidents, near misses, unsafe acts and conditions.
- Establish and maintain emergency response plan for all operations.
- Ensure that contractors, subcontractors and suppliers adhere to our HSE requirements and standards.
- Periodically review HSE performance and management systems to drive continual improvement.

ALL management and employees of **HENCH AND HADDOCK LIMITED** are mandated to participate and comply with HSE initiatives and exercise individual responsibility for their own safety, the safety of others, and protection of assets and environment.
